

Heritage Middle School
2006-2007 Future City Team
Students: Lizzie Gauen, Glen Gainer, and Emma Henderson
Engineer: Ted Beidler
Teacher: Debbie Pellington

Advice for Future City teams:

- Know how your Sim City Computer Model relates to your model city design.
- In your presentation, focus on the main features and highlights of your city.
- Creatively incorporate recycled materials into your city. Students, be resourceful in how materials are utilized within your model.
- Presentation should be clear and practiced.
- The moving part should relate to some aspect within your city.
- Practice and have fun!

Tips for Nationals:

- The Hyatt is expensive. Eat at the Holiday Inn across the street, or at Union Station to save money.
- Eat breakfast in the room to save money. You can buy food at the Hyatt gift shop, the carry-out across the street, or Union Station. If you drive, bring your own!
- Use the Ice Breaker and Wrap-Up party as a chance to make new friends.
- Take pins to trade.
- Try to get rooms on the same floor.
- Teams that shipped their models had more damage and repairs than those that drove them. It also took them longer to pack and unpack.
